

APT Series 6 and 8 Foot Multi Pedestal Table with H-Type Thermo-plastic Coated Perforated Steel Top and Seats

SPECIFICATION BULLETIN
#SPC-TB-083

REV. 01-10

Model APT/G-6HU 6 ft. Multi Pedestal Embedded Mount Table with Hot dip Galvanized Frame and Blue H-Type Thermo-plastic Coated Perforated Steel Top and Seats

- Constructed specifically for heavy use areas
- Nontrip, walk-through design
- Permanent embedded mounting
- Sturdy 3" x 6" rectangular steel tube pedestals
- Frames are hot-dip galvanized after fabrication for superior corrosion resistance
- Thermo-plastic Coating heat fused to Perforated Steel Seats and Top for durability
- Thermo-plastic Coating formulated with U.V. stabilizers for ultraviolet protection
- Eight foot model can easily be installed to be handicap accessible
- Quality construction throughout

AVAILABLE OPTIONS

6' or 8' lengths

Choice of colors of Powder Coated finish for steel frame components

Choice of colors of Thermo-plastic Coated Perforated Steel

Surface mount base plate

SPECIFICATIONS:

- •APT Series table top and seat end frames are one-piece welded construction, fabricated from 3" x 6" x 1/8" wall rectangular structural steel tubing with 2" x 2" x 3/16" A-36 structural grade steel angle for attaching the seats and tops. Exposed ends of rectangular tubing are permanently sealed with welded-on steel end caps. Frames are designed to be embedded in a concrete footing.
- Model APT/G-6 is a nominal 72" in length.
- Model APT/G-8 is a nominal 96" in length.
- Nominal table height is 32". Nominal seat height is 18-1/2".
- **Standard:** All frame components are hot-dip galvanized after fabrication to ASTM-A123 to maintain an average zinc coating of 2.0 oz. per sq. ft. of surface area (indicated by "/G" in model no., e.g. APT/G-6HW).
- H-Type table top and seats are each one-piece welded construction, fabricated from a 14 ga. perforated steel surface with 9/16" dia. holes in a 13/16" center to center in-line pattern and 2-1/2" x 10 ga. roll-formed vertical edges on all sides reinforced by a 10 ga. die-formed angle substructure. Substructure includes all mounting holes for easy assembly of table.
- Standard: All steel surfaces of the top and seats are covered with a thermo-plastic coating in a Brown color (indicated by "HW" in model no., e.g. APT/G-6HW). The UV-stabilized thermo-plastic coating is applied in a multi step process of material preparation and finish application designed to permanently heat fuse and bond the finish to the steel. The thermo-plastic polyethylene finish is impact resistant, does not support mold or mildew, and the textured matte surface is less susceptible to marring and scuffing.
- All fasteners are provided for assembly.
- **Optional:** Color choices of powder coated steel frame components. For optional colors choices see Specification Bulletin #SPC-CO-001.
- **Optional:** Color choices of thermo-plastic coated steel components. For optional colors choices see Specification Bulletin #SPC-CO-001.
- **Optional:** Frames are provided with 3/8" x 8" x 8" steel base plates to bolt table top and seat posts to existing concrete pad. To specify add "/P" after the "APT" in the model no., e.g. APT/P/G-6HW. (Anchor bolts not included.)
- Accessible Option: Model APT-8 can be made handicap accessible by mounting table top frame pedestals closer to center of table.
