Model XT/G-8HR 8 Ft. Heavy Duty Portable Rectangular Table with hot dip galvanized frames and red H-Type thermo-plastic coated perforated steel seats and top

- Snow load/extreme load rated to 1420 lbs. per square foot
- Top and seats designed for more abusive environments such as high elevations where snow loads can destroy average tables
- Nontip, nontrip walk-through design
- All welded end frames are fabricated from 2-3/8" diameter steel pipe
- Diagonal braces align and strengthen entire table
- Frames are hot dip galvanized after fabrication for superior corrosion resistance
- Thermo-plastic Coating heat fused to **Perforated Steel Top and Seats for** durability
- Thermo-plastic Coating formulated with U.V. stabilizers for ultraviolet protection
- Limited lifetime warranty on frames

AVAILABLE OPTIONS

6' or 8' length Powder Coat Finish in choice of colors for steel frame components Choice of colors of Thermo-plastic Coating

- Substructure includes all mounting holes for easy assembly

• Standard: All steel surfaces of the top and seats are covered with a thermo-plastic coating in a Brown color (indicated by "HW" in model no., e.g. XT/G-6HW). The UV-stabilized thermo-plastic coating is applied in a multi step process of material preparation and finish application designed to

•XT Series end frames are one-piece welded construction,

• Nominal table height is 30". Nominal seat height is 18".

• Frames are supported by diagonal braces of 1-5/16" O.D. x 14 ga. steel pipe that connect to the underside of the table

• **Standard:** All steel frame components are hot-dip galvanized

after fabrication to ASTM-A123 to maintain an average zinc

coating of 2.0 oz. per sq. ft. of surface area (indicated by "/G")

•H-Type table top and seats are each a one-piece welded construction, fabricated from a 14 ga. perforated steel surface with

9/16" dia. holes in a 13/16" center to center in-line pattern and

2-1/2" x 10 ga. roll-formed vertical edges on all sides

reinforced by a 10 ga. die-formed angle substructure.

fabricated from 2.375" O.D. (2-3/8" O.D.) steel pipe to meet 2" nominal steel pipe size specifications with 2" x 2" x 1/8" die formed steel angle for attaching the seats and tops. • Snow Load Capacity: This table has been independently tested to meet the U.S. Forest Service snow load requirement of 1420 lbs. per square foot. (Test results available upon request) • Table frame design incorporates nontip, nontrip, walkthrough design features. Bends are tightly formed to prevent

permanently heat fuse and bond the finish to the steel. The thermo-plastic polyethylene finish is impact resistant, does not support mold or mildew, and the textured matte surface is less susceptible to marring and scuffing.

- Optional: Color choices of powder coated steel frame components. See Specification Bulletin #SPC-CO-001.
- Optional: Color choices of Thermo-plastic coated steel components. For optional colors choices see Specification Bulletin #SPC-CO-001.
